

exterior surface of the first housing portion as shown in the figures and mentioned above. Claim 11, which has been added to the application, depends from in Claim 1 and recites that the support generally conforms to the contour of the exterior surface of the first housing portion in the closed position.

It is respectfully submitted that no new matter has been added to the application by the foregoing amendments.

An examination on the merits of the application is requested.

Respectfully submitted,

Robert Kinberg
